DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel non-elected claims 7-12.

This application is in condition for allowance except for the presence of claims 7-12 directed to an invention non-elected without traverse. Accordingly, claims 7-12 have been cancelled.

Allowable Subject Matter

Claims 1-6 and 13-18 are allowed.

The following is an examiner's statement of reasons for allowance:

There is no teaching or suggestion in the art of record disclosing a magnetic memory device comprising a storage cell positioned at an intersecting area of a first and second wiring, wherein the second wiring overlaps and contacts onto an upper surface

of the storage cell and a sidewall portion of the second wiring electrically connecting to the upper surface of the storage cell has a forward tapered shape having a lower portion overlapping onto the upper surface and having a contact angle relative to the upper surface of the storage cell being 45 degrees or more and an upper portion having an angle relative to the upper surface of the storage cell being less than 45 degrees and greater than 0 degrees. Both independent claims 1 and 13 contain this allowable subject matter and are therefore deemed allowable along with their dependent claims 2-6 and 14-18, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
